Introduction

Red Workspace was founded by three experienced directors with a combined 50 years in the commercial office fit-out sector, driven by a shared vision to make a meaningful change. With expertise spanning design, project management, and execution, we are committed to delivering innovative and functional office spaces that go beyond expectations.

At Red Workspace, we combine years of industry knowledge with fresh, forward-thinking approaches to create inspiring, efficient work environments. From initial concept to final delivery, our team ensures every detail is tailored to meet the unique needs of each client, helping businesses optimize their workspace for maximum productivity and success. We want to be known as true trail blazers of the industry.

Who we are

Ben Clover

BSC (HONS) MRICS
PROJECT DIRECTOR

With over 28 years of experience in the fit-out industry, Ben brings a wealth of knowledge and expertise to Red Workspace. Starting his career as a Chartered Surveyor at Dunlop Heywood and Edwin Hill, Ben transitioned into the fit-out sector, holding senior roles as Sales Director at Modus and Morgan Lovell deliver numerous cross sector projects for major corporations. Driven by a passion for change, Ben co-founded Red Workspace with his fellow directors to deliver exceptional design solutions that are both competitively priced and efficient in an ever-inflating market. His primary focus is on expanding the company's client base and providing outstanding after-sales service to ensure long-term satisfaction for existing clients. Ben's dedication to quality and client relationships is a cornerstone of Red Workspace's success.

Ben maintains his Chartered Surveyor accreditation with RICS which provides a great knowledge base and asset to our clients particularly on building choice and location.

Bruno Van Dyke

BSC (HONS)
PRE-CONSTRUCTION DIRECTOR

Bruno Van Dyke began his career as a commercial manager in the construction industry, where he gained extensive experience in managing large-scale projects. Over time, he transitioned into the fit-out sector and later moved to the delivery side, overseeing projects from inception to completion. With a proven track record of delivering high-profile projects of 50,000 sq ft and above, Bruno is well-equipped to lead Red Workspace through every phase, from pre-construction to final handover. He is dedicated to delivering the best value to clients while maintaining a strong cost base and leveraging buying power to ensure our clients success. Bruno's leadership and commitment to excellence make him an invaluable asset to the team.

Peter Bull

BSC (HONS)
CONSTRUCTION DIRECTOR

Peter Bull initially trained as a structural engineer before transitioning into the high-end residential sector, where he honed his skills as a project manager. His passion for excellence and millimetre perfect attention to detail led him to run a highly successful high-end residential contracting company for many years, consistently delivering projects to the highest standards at every stage of the build. This commitment to quality remains at the core of his work today at Red Workspace, where Peter has developed a stringent quality process that spans from design through to completion. His focus is on ensuring exceptional delivery on-site, providing strategic input during the design phase, and conducting ongoing quality reviews throughout each project. Beyond his hands-on approach, Peter also plays an active role in steering the business, overseeing operations, and looking towards the future to maintain the company's commitment to excellence. With Peters knowledge in engineering and surveying Red Workspace are extremely well versed with structural alterations which sets us out from the rest.

Our Process

What do you want?

This is our first question when we do a design review. Our focus is on what you the client wants and how to turn your brief into a reality.

Flexibility

Red Workspace is a flexible business driven by its directors that adapts to the unique needs of each client. We tailor our services to ensure that every project is aligned with your specific goals and requirements.

Team

We tailor our team around you and who you work best with from design to delivery. We have extensive in our knowledge and experience dealing with clients from all industries from life sciences to AI tech firms.

Cost

Red Workspace understand with a post covid rise in material and labour costs that budgets are stretched. We work hard with our supply chain to keep costs down through design, buying power and efficiency for our client's benefit.

Delivery

Red Workspace consistently delivers high-quality projects on time, every time, without exception.

Previous Experience

REVCAP

Mixology Finalist (Industry Awards) for the 'Best Fit Out in the 5-15k sq ft' category.

SIZE: 10,000 SQUARE FEET

BUDGET: £1,800,000.00

DESIGNER: MOREY SMITH

This was the 2nd relocation for a longstanding client. Red Workspace were involved from taking the initial brief to collaborating with both the client and agent on the building choice, aiding the interview process to choose their designer, providing detailed budgeting throughout the lengthy and specific design process to delivery of the fit-out and furniture package.

The project involved significant structural alterations of the building to enable a new cantilevered feature staircase to connect the second and third floors. Red Workspace also delivered a high end bespoke joinery and furniture package to complete the industrial free space to form their London HQ.

Previous Experience

US Hedge Fund (Name confidential)

SIZE: 6,000 SQUARE FEET

BUDGET: £1,200,000.00

DESIGNER: SHAW STUDIO

Red Workspace was approached by a US hedge fund to design a new office in Soho. We assisted in selecting the design team to collaborate with both the client and ourselves in creating a workspace that was less corporate and more flexible than their previous office. The project called for specialized finishes, such as leather wall panels, acoustic treatments, breakout areas, as well as high-end AV capabilities and carefully selected furniture pieces.

Why RED Workspace?

Client-Centric Approach

At Red Workspace, we believe that strong, open communication is key to successful projects. Our team listens to your vision and feedback throughout the process to ensure we're delivering exactly what you need. We're here to support you every step of the way.

Sustainability & Innovation

We prioritise sustainable practices in every project, selecting materials that are eco-friendly and energy-efficient without compromising on design quality. Our innovative approach ensures that your fit-out doesn't just meet today's standards but is also forward-thinking and ready for the evolving needs of tomorrow's workplace.

The Team

We are a fun, dedicated, and personable team that values building strong relationships with our clients. We treat our clients as friends and work closely with them as true partners throughout the entire process. It's not just about delivering results, but also about enjoying the journey together. Many of our clients return to work with us again, and over time, we've formed lasting friendships along the way.
